

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 121009528-2729-02]

RIN 0648-XD063

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2013 commercial summer flounder quota to the Commonwealth of Virginia. NMFS is adjusting the quotas and announcing the revised commercial quota for each state involved.

DATES: Effective [insert date of publication in the Federal Register]. The quota transfer is applicable from December 3, 2013, through December 31, 2013.

FOR FURTHER INFORMATION CONTACT: Carly Bari, Fishery Management Specialist, 978-281-9224.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are in 50 CFR part 648, and require annual specification of a commercial quota that is apportioned among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state are described in § 648.102.

The final rule implementing Amendment 5 to the Summer Flounder, Scup, and Black Sea

Bass Fishery Management Plan, which was published on December 17, 1993 (58 FR 65936), provided a mechanism for summer flounder quota to be transferred from one state to another. Two or more states, under mutual agreement and with the concurrence of the Administrator, Northeast Region, NMFS (Regional Administrator), can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i) to evaluate requests for quota transfers or combinations.

North Carolina has agreed to transfer 29,373 lb (13,323 kg) of its 2013 commercial quota to Virginia. This transfer was prompted by summer flounder landings of four North Carolina vessels that were granted safe harbor in Virginia due to mechanical failures between December 3, 2013, and December 16, 2013, thereby requiring a quota transfer to account for an increase in Virginia's landings that would have otherwise accrued against the North Carolina quota. The Regional Administrator has determined that the criteria set forth in § 648.102(c)(2)(i) have been met. The revised summer flounder commercial quotas for calendar year 2013 are: North Carolina, 373,400 lb (169,371 kg); and Virginia, 5,314,380 lb (2,410,562 kg).

Classification

This action is taken under 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.

Dated: January 14, 2014

---

Sean F. Corson,  
Acting Deputy Director,  
Office of Sustainable Fisheries,  
National Marine Fisheries Service.
